 - Left side facing
 - Right side facing

Options

Aluminum hood for protection
Valance lettering 2"

Product Features

- White, extruded aluminum frame has a roller tube onto which the fabric can be rolled to have the sun and view when you want it. The awning can be extended when you need sun protection. Operates with a hand crank or optional motor.
- Save \$\$ on energy bills. Add a Somfy motor and sun sensor for automatic operation when the sun comes out. Shades your windows and doors; lowering the indoor temperatures by as much as 15 degrees and reducing sunlight and glare by up to 94%
- No overhang? Optional extruded aluminum hood will seal the awning to the wall, providing protection for your doors, windows and the fabric itself.

Retract or extend with the touch of a button.

- Motor comes installed in awning, just plug in for operation
- Optional sun sensor will extend when sunny and retract at night. Battery powered, no power cord needed.

12' plug in cable
