## Radio Technology Somfy® (RTS): Exclusive Somfy technology dedicated to your comfort

Somfy, the world's leading manufacturer of tubular motors, has more than three decades experience in designing and manufacturing motors and controls, making Radio Technology Somfy® (RTS) the ultimate choice for automation of retractable awnings and exterior screens.

Radio Technology Somfy® (RTS) offers a high performance, convenient and reliable solution for awning and screen automation, eliminating the need for wiring between the motor and controls. With the radio receiver integrated within the motor, RTS is the ideal choice because installation is quick and easy.

Whether you want to control your awning or screen at the touch of a button or use automatic controls, Somfy has the solution. It's so easy, It's Somfy!

### Telis RTS Collection

Somfy's Telis RTS transmitters feature Radio Technology Somfy® (RTS) and offer push button control of your retractable awning or exterior screens. The Telis RTS collection is available in single channel, five channel and Soliris versions in four unique finishes, with a streamline shape and rubber edging for increased durability.

For the ultimate control, Somfy now offers the NEW Impresario and Composio RTS transmitters. Providing centralized control, the Impresario allows for timed programming of your awning or screen to move independently or as a group while the Composio offers an amazing 20 channels of control options. Programming is virtually limitless.

Telis Composio

### Convenience and Simplicity

Combining high-performance technology with practical features, Somfy RTS sensors and controls power your awning or screen to respond to the weather in a dependable and effortless manner making it easier for you to use your retractable awning or exterior screen.

DecoFlex Single to 5 channel WireFree™ RTS wall switch available with customized labeling options

### Eolis 3D WireFree™ Sensor

is a wireless, battery powered wind sensor that will automatically retract the awning when it detects wind generated movements.

### Sunis WireFree™ RTS Sun Sensor

is a wireless, sun sensor that is powered with an integrated solar cell and uses RTS to automatically extend an awning based on the sun's intensity.

Americana Motor Kit contains: Motor with a 12' plug in cable, specify left or right side installation. Telis Pure remote transmitter to control your unit.

Customize with 1) Eolis 3D wind sensor 2) Eolis sun sensor.  
Power options: 3) bare wire-in power cable, 4) 24' plug in cable  
Transmitter options: 5) Remote transmitter to control up to 5 units  
6) Wall transmitters so you never need worry about losing the remote. Wall units are wire-free, just install into wall, no wiring needed. 7) Different style remote

### Home Motion by Somfy®

Automated awnings and exterior screens transform your deck, patio or backyard into extra living space. Shade or sun... You decide what you want and when you want it.

Please look for a retail dealer in your area that is recognized as a Somfy Expert. They are trained specialists who are committed to providing you with quality Somfy motors and controls and service.
